

# EMPOWER YOUNG LEADERS AROUND THE WORLD

Rise Up enables young leaders to transform their own lives, communities and countries. Since 2009, Rise Up leaders have successfully advocated for over 100 laws and policies impacting the lives of 115 million girls, youth, and women globally.

**This campaign will expand our work with visionary young leaders around the world. With your gift, we can empower young leaders locally in California and globally in Central America and Africa.**

Support Rise Up's campaign today:

**Sponsor young leaders in California, Central America, and Africa**

Rise Up empowers young people to advocate for new laws and policies that improve the lives of girls, youth and women. We have a proven approach that integrates leadership and advocacy training, seed funding, technology and innovation.

With your donation, we will expand our US initiative to include young leaders from California, and expand our critical work in Central America and Africa. Your gift will transform the lives of these young leaders, enabling them to create large-scale social change in their communities.

**Your gift can enable more young leaders from California, Africa and Central America to transform their communities and countries:**

**\$500** can train girls to become leaders in the fight to end child marriage in Malawi.

**\$1,000** can support girls' education in Nigeria.

**\$2,500** can enable young leaders in California to use technology to prevent unwanted pregnancy and HIV/AIDS.

**\$5,000** can empower an entire network of girl leaders to stand up for gender equality in Guatemala.

**\$10,000** can fund a nationwide, technology-based campaign to dramatically improve young people's health in the US.

Meet some of the visionary young leaders we have supported in the past:

**Memory** led a campaign to end child marriage in Malawi.

**Monica** taught youth in the US to organize for comprehensive sex education using art and dance.

**Gayatri** created a WhatsApp program to enable young people in India to learn how to prevent unwanted pregnancy and HIV/AIDS.

**Emelin** is fighting to ensure all girls can finish school and stay healthy in Guatemala.

**Tinbit** created an animated television series in Ethiopia about girl super heroines fighting for gender equality.

**Nakita** empowers young women of color in the US to become leaders who stand up against gender-based violence.
